

This form is to be used for the purposes of section 10 of the *Building Act 1975* and section 53 of the Building Regulation 2021. The relevant building certifier, another building certifier or a appointed competent person is stating a stage of work is compliant with the building development approval.

Explanatory information relevant to completion of this form is in the Appendix at the end of this form.

<p>1. Stage of the building work</p> <p>See section 44 of the Building Regulation 2021 (BR 2021) for what constitutes a stage of assessable building work.</p>	<p>List stage/s of building work (indicate the stage)</p>				
<p>2. Property description</p> <p>The description must identify all land the subject of the application.</p> <p>The lot and plan details (e.g. SP/RP) are shown on title documents or a rates notice.</p> <p>If the plan is not registered by title, provide previous lot and plan details.</p>	<p>Street address <i>(include number, street, suburb/locality and postcode)</i></p> <p>.....</p> <p>..... State Postcode</p> <p>Lot and plan details <i>(attach list if necessary)</i></p> <p>.....</p> <p>Local government area the land is situated in</p> <p>.....</p>				
<p>3. Building/structure description</p>	<table border="1"> <thead> <tr> <th data-bbox="560 1258 1177 1294">Building/structure description</th> <th data-bbox="1177 1258 1514 1294">Class of building/structure</th> </tr> </thead> <tbody> <tr> <td style="height: 150px;"></td> <td></td> </tr> </tbody> </table>	Building/structure description	Class of building/structure		
Building/structure description	Class of building/structure				
<p>4. Description of component/s certified</p> <p>Clearly describe the extent of work covered by this certificate, e.g. all structural aspects of the steel roof beams.</p>					

<p>5. Basis of certification</p> <p>Detail the basis for giving the certificate and the extent to which tests, specifications, rules, standards, codes of practice and other publications were relied upon by the inspecting person.</p>	
---	--

<p>6. Reference documentation</p> <p>Clearly identify any relevant documentation, e.g. numbered structural engineering plans or aspect inspection certificates.</p>	
--	--

<p>7. Building certifier reference number and building development approval number</p>	<p>Building certifier reference number</p> <p>.....</p>	<p>Building development approval number</p> <p>.....</p>
---	---	--

<p>8. Building certifier or appointed competent person</p> <p>Under Part 6 of the Building Regulation a person must be assessed, by the relevant building certifier as competent to give inspection help for the stage work.</p>	<p>Name <i>(in full)</i></p> <p>.....</p> <p>Company name <i>(if applicable)</i> Contact person</p> <p>.....</p> <p>Business phone number Mobile number</p> <p>.....</p> <p>Email address</p> <p>.....</p> <p>Postal address</p> <p>.....</p> <p>..... State Postcode</p> <p>Licence class or registration type <i>(if applicable)</i></p> <p>.....</p> <p>Licence or registration number <i>(if applicable)</i></p> <p>.....</p>
---	---

<p>9. Signature of building certifier or appointed competent person</p> <p>Note: a building certifier must sign this form for temporary swimming pool fencing under section 4 of Schedule 1 of the QDC MP 3.4.</p>	<p>Signature Date</p> <p>.....</p>

Appendix – explanatory information

IMPORTANT NOTE: a competent person who knowingly or reasonably suspects the information they are giving to the building certifier is false or misleading, including the information contained in this certificate (Form 16), commits an offence and is liable to a maximum penalty of 100 penalty units.

Who can complete this certificate? (sections 10 of the *Building Act 1975* (Building Act) and 53(2) of Building Regulation 2021 (BR 2021)). This form must be completed and signed by a building certifier for the work or another building certifier or the appointed competent person (inspections) – the **inspecting persons**.

When is a Form 16 needed?

This form is to be completed when an inspecting person inspects a stage of assessable building work, as stated in a notice for inspection and is satisfied that all relevant aspects of the stage of work have been completed and comply with the building development approval for the work.

The inspection time for a stage of work is to be agreed between the builder and building certifier and must be carried out by the inspecting person in accordance with best industry practice.

If satisfied the stage is compliant the inspecting person must give the builder for the stage of work the completed and signed Form 16. The regulation requires the inspecting person to provide the reasons why they are satisfied all aspects of the stage are completed and compliant, including any tests, specifications, rules, standards, codes of practice or other publications relied upon when making the assessment.

The inspecting person may rely on an aspect certificate from an appointed competent person (inspections), (Form 12 – Aspect Inspection Certificate) or a QBCC licensee (Form 43 – Aspect certificate (QBCC licensee)).

Restrictions for who can sign a Form 12 – Aspect Inspection Certificate (appointed competent person) (Part 9, Division 2 and section 46 of the BR 2021)

For a single detached class 1a building and class 10 building or structure (excluding swimming pools and swimming pool barriers) only the building certifier for the assessable building work, or another building certifier, can sign the certificate of inspection (Form 16) for the following stages:

- if the building is to have footings (footing stage) – the stage of the building work that is after excavation of foundation material but before the placement of formwork, reinforcement for the footings and the pouring of the concrete for the footings
- if the building is to have a slab (slab stage) – after the placement of formwork and reinforcement for the slab but before the concrete for the slab is poured
- the final stage of the work.

Nothing prevents a competent person (inspection) who is not a building certifier from giving inspection help for an aspect of a stage mentioned above. However, for a single detached class 1a building the building certifier must not accept an aspect inspection certificate for all aspects of the final stage.

The relevant building certifier can also use another building certifier to inspect the stages mentioned above, without assessing and appointing the person as a competent person.

For the footing or slab stages of the building or structure, a building certifier may appoint a Queensland registered professional engineer as a competent person to inspect aspects of work for this stage. While the building certifier can accept a competent person's aspect inspection certificate – Form 12 as part of their compliance assessment for the stage of work, it remains the building certifier's responsibility to complete and sign the Form 16 for the three stages of work mentioned above.

Competent person (section 10 of the *Building Act 1975* and Part 6 of the BR 2021)

A building certifier must assess and decide to appoint an individual as a competent person before they can, as a competent person, give design-specification help. The building certifier is required to keep detailed records about what was considered when appointing a competent person.

A competent person cannot give inspection help to a building certifier until they have been appointed by the building certifier. For further information about assessment of someone as a competent person refer to the **Guideline for the assessment of competent persons**.

Inspection help (section 34 of the BR 2021)

A building certifier must be satisfied that an individual is competent to give the type of inspection help having regard to the individual's experience, qualifications and skills and if required by law to hold a licence or registration, that the individual is appropriately registered or licensed.

For further information about [conducting inspections for class 2 to 9 buildings](#), refer to the **Guideline for inspection of class 2 to 9 buildings**.

For further information about conducting inspections for detached class 1a and 10 buildings or structures refer to the **Guideline for inspections of class 1 and 10 buildings and structures**.

Additional information

It is considered good practice for a building certifier or appointed competent person who is accepting and relying on this form and any attached certificates i.e. aspect certificates, to check the information or details contained in the form.

This form is also the inspection certificate to be used for temporary swimming pool fencing.

Form 43 – Aspect certificate (QBCC licensee) – for aspect [work for a single detached class 1a building and class 10 buildings](#) and structures a building certifier or the appointed competent person can accept and rely on Form 43, the approved form from a QBCC licensee with the appropriate licence class that the work is compliant with the building development approval.

Form 12 – Aspect Inspection Certificate (appointed competent person) – for aspects of a stage or other aspect work for all classes of buildings and structures the building certifier may accept and rely on a Form 12 from an appointed competent person stating the aspect work is compliant with the building development approval.

Aspect certificate for accepted development (self-assessable), as prescribed under Schedule 1 of the BR 2021

Form 30 – section 70 allows the QBCC licensee to give a Form 30 to the builder for the building work or the owner of the building, stating the subject aspect work complies with the relevant provisions, standards and codes.
